PREFATORY NOTE

BIBLIOGRAPHIC INDEX is a subject list of bibliographies published separately or appearing as parts of books, pamphlets, and periodicals. Periodicals examined for bibliographic material include those indexed in Wilson periodical indexes as well as others received at research libraries. Selection is made from bibliographies that have fifty or more citations. Exceptions are made for bibliographies of works by or about a person, or for specialized or topical material, which may be listed with fewer citations.

The Index concentrates on bibliographies in the Roman alphabet published within the preceding five years. Non-print items, reprints, catalogs of library holdings, and bibliographies in clinical medicine or case law are omitted.

Subject headings conform to Library of Congress Subject Headings. "See" references are made from variant forms of subject headings to the form used in *Bibliographic Index*. "See also" references are made from a subject to related or more specific subjects under which additional material may be found.

Citations are arranged alphabetically by main entry under each heading. Further information about the content of citations is given in the Sample Entries.

Amusement parks—cont.

Florida

See also

Walt Disney World (Fla.)

Amusement rides

See also

Amusement parks

Amusements

See also

Aquatic sports

Conjuring

Dance

Games
